DANE TRIES TO GET ELECTRICITY IN AIR
(BY CABLE-EXCLUSIVE DISPATCH.)
COPENHAGEN, Oct. 12.—The famous Danish inventor, Valdemir Poulsen, is working on a new great invention. He is trying to develop electrical power direct from the air. In an interview he says:
"If a success, the invention will mean a revolution in the world's industries. Comparing it with the wireless, the importance of the new invention is an atom to a brick."

COAL PRODUCTION IN WEEK SHOWS DECLINE.
CAUSE IS A DROP IN COKE DEMAND DUE TO STRIKE OF STEEL WORKERS.
(EXCLUSIVE DISPATCH.)
WASHINGTON, Oct. 12.—The weekly report of the Geological Survey on coal production shows that a slight decline in the production of soft coal occurred during the week ended October 4, caused chiefly by a drop in the demand for bituminous coke which has attended the steel strike. The total bituminous output (including lignite and coal made into coke at the mines) is estimated at 11,476,000 net tons. As compared with the production of the preceding week (11,600,000 tons) this was a decrease of 1.2 per cent. The cars of coal loaded for shipment, however, declined only .5 per cent, from 210,835 cars to 209,023. Although the output was less than that of the preceding week it was the second highest of the year. The curve of daily productions remains well above the level of 1917. The total output of coal has not been seriously reduced by the steel strike, for the general demand is sufficiently active to absorb mine capacity released by the steel industry. The production of anthracite did not maintain the high level set the week before, but has never been exceeded only twice this year. The output for the week ended October 4 is estimated at 1,921,000 net tons, compared with 1,964,000 tons the preceding week. The nature of the production since the beginning of the coal year is now 7,118,000 tons less than during the corresponding period of 1918. Measured by this standard the output of anthracite during the present season appears satisfactory.

Coats' "Arrow Brand" crochet cotton in all numbers and all colors. 10c balls for 8 1/2c. Fourth floor.

Stamped Scarfs \$1.25 Values \$1.00

18x50 inch size, lace edge and insertion. An assortment of patterns. Fourth floor.

FEAR JAPANESE GRIP IN RUSSIA.

Trans-Siberian Railroad Presents Problem.

Kolchak Unable to Protect it, Asks Allied Aid.

Peace Conference has Delicate Situation to Handle.

(Exclusive Dispatch.)

WASHINGTON, Oct. 11.—Neither Secretary Lansing nor Secretary Baker would comment on reports current here that Admiral Kolchak, head of the anti-Russian government at Omsk, had notified the United States and other Allied governments that he cannot spare troops from the Siberian front to take over control of the 1999-mile stretch of railroad between Omsk and Irkutsk when the Czech-Slovak troops, now maintaining this line of communication, start from Siberia.

Czech-Slovakia is anxious to have these troops returned to Bohemia as soon as possible. There are still about 50,000 of them in Siberia, and the protection of the railway line from the headquarters of the Kolchak government at Omsk and the Semenov-Japanese headquarters at Irkutsk has been entrusted to them.

The situation presents the question as to who will take over the control of the Omsk-Irkutsk section of the Trans-Siberian Railroad. The United States and Japanese governments are the only ones among the Allied powers that would be able to throw more troops into Siberia for keeping that section of the railway open.

CONGRESS MUST APPROVE.

A high State Department official, when asked whether the United States would be willing to increase its armed forces in Siberia for the purpose of undertaking that task, replied that this could hardly be done without action and approval by Congress.

There is little evidence that the present Congress is in a mood to

ELIMINATION OF TYPESETTING MAY BE PRINT STRIKE SEQUEL.

(BY A. P. DAY WIRE.)

NEW YORK, Oct. 11.—Elimination of typesetting, one of the costliest operations of magazine production, by the use of plates made by photographing the original typewritten copy has been accomplished in the October 18 issue of the Literary Digest, consisting of eighty pages. This radical innovation, brought about by the printers' strike here, leads the publishers to suggest "it is possible in this age of marvels that the whole future of magazine production may be revolutionized by the elimination of typesetting."

The make-up of the magazine is in no way changed, the only difference being that the style of the type is that used on typewriters and is uniform in all the reading matter throughout the number. The right-hand side of each column is irregular as in ordinary typewritten copy.

send more troops into Siberia. Senator Johnson of California and the Illinois delegation have been working overtime trying to have the American forces already there withdrawn. If the United States government does not favor the sending of more troops to take over parts of the railway, since England, France and Italy are not understood to be in favor of sending troops, the protection of the railroad would either have to be undertaken by the Omsk government, at the risk of weakening its Ural front, or perhaps entrusted to Japan.

FEAR JAPANESE. There is a very well defined fear here that if Japan is permitted by the Allies to go it single-handed in furnishing a considerable number of troops for guarding the railroad, the Japanese government will demand compensation from Russia for the execution of such a mandate from the Allied powers, and that this would ultimately result in the development of another foothold on the Asiatic mainland, and the ultimate presentation of a new Russian problem.

The Allied powers, as was announced by the State Department last spring, reached an agreement by which they pledged themselves to maintain the communications of the Trans-Siberian Railroad by Allied forces. The Czech-Slovak forces were part of this international force. The ultimate decision as to what should be done in the situation now presenting itself will be considered by the Supreme Council at Paris. But that council will find it more difficult to meet the contingency if the American government is unwilling to furnish additional troops for the purpose.

WARNS AGAINST REDS. (BY A. P. NIGHT WIRE.) CINCINNATI (O.) Oct. 11.—President Edgar de Witt Jones of Bloomington, Ill., told 12,000 delegates attending the opening session of the International convention of Disciples of Christ in Music Hall tonight that one Bolshevik could do more harm than six Christians can undo, unless a back-fire of Christianity stops the Bolshevik movement.

"Recently, I listened to a Bolshevik for thirty minutes," Dr. Jones said. "While he did not convince me by his argument, he demonstrated the power of the Bolshevik movement." The speaker pleaded for recognition of the danger society is in from the Red movement, and suggested a correction in laws to meet the situation.

MEMORIAL FOUNTAIN FOR ARIZONA HEROES. (SPECIAL CORRESPONDENCE.) TUCSON (Ariz.) Oct. 11.—A beautiful memorial fountain is being erected on the campus of the University of Arizona to the men of the college who fought in the world war. Inscribed upon it will be the names of the men of the college who gave their lives for the freedom of humanity.

There will be a formal dedication next month. The cost of the fountain is about \$5000, given anonymously.

Harry Carr of The Times says: "Broken silence was told in pictures because there are no words exquisite enough to have told it." (Advertisement.)

THOUSANDS RETURN. YOUNGSTOWN (O.) Oct. 11.—After a day that began with disaster and fear of serious trouble tonight saw the Mahoning Valley quiet and the mills working on a far larger scale than at any time since the strike began. It is estimated that 3500 men returned to work in Youngstown today, practically doubling the number who have deserted the ranks of the strikers, and gone back to their old positions. At Warren 3000 workers also returned to the mills.

Of all the steel companies the Youngstown Sheet and Tube Company was most successful in resuming operations tonight. Number 1 blast furnace was started today and No. 2 is being warmed up tonight in preparation for starting tomorrow. Two more open hearth furnaces began operations tonight. Four sheet mills out of fifteen began operation this afternoon and crews of others were called in to begin in the morning.

The Brierhill Steel Company today had a blast furnace, three open hearths and a part of one plate mill in operation.

In Warren more than 3000 workers of the Trumbull Steel Com-

STEEL STRIKERS BACK IN DROVES

Mills in Pittsburgh District Almost Normal.

Three Plants in Chicago Zone Resume Production.

Industry Conference to Vote on Arbitration Today.

(BY A. P. NIGHT WIRE.)

PITTSBURGH, Oct. 11.—Steel companies whose plants are operating in the Pittsburgh district continued to report steady progress toward normal conditions today, which marked the beginning of the fourth week of the nation-wide steel work stoppage. No announcement of additional mills starting up came from anywhere in the Pittsburgh district but several in other steel centers were reported as having begun operations. Neither were there any claims made of large numbers of men returning to work in plants that have been striking.

Strikers leaders at the headquarters of the steel workers' national committee expressed gratification at the steady progress toward normal conditions, but they also expressed their determination to continue their fight for a better deal, which, signed, "The American Anarchist Federated Commune Soviet of New York," is said by the police to be the most radical yet discovered.

The circular is the first found here directly attacking individuals. Denouncing the action of the police in dispersing a mob of several thousand radicals who attempted to march up Fifth avenue last week without a permit, it calls upon justice to be done, and it calls upon the police to arrest the defendants and charge them with criminal anarchy, Mr. Rorke, prosecutor at the trial, and Detective Gahan to "teach their high positions," and asserts they will have "to pay the price for every worker, killed or wounded."

CHICAGO, Oct. 11.—Three steel plants, closed since the strike of steel workers three weeks ago, reopened today with approximately 50 per cent. of a normal working force, according to reports from the police. The plants are the Federal Ordnance Company, the Federal Ordnance Company and the Federal Ordnance Company.

The situation at the plants of the Illinois company was unchanged.

CENSORSHIP DENIED. (BY A. P. NIGHT WIRE.) WASHINGTON, Oct. 11.—Denial that a military censorship had been established at Gary, Ind., where Federal troops are on duty because of the steel strike, was made in a telegram received at the War Department today from Maj. Gen. Wood, commanding the Central Department, with headquarters at Chicago.

No press censorship has been established at Gary," said the message. "Your advice probably due to misunderstanding of a request made to representatives of the press not to publish certain information which would tend to complicate the military situation at Gary."

Labor's resolution proposing intervention in the steel strike will come before the National Industrial Conference, without recommendation of the central committee, as the first order of business tomorrow. It was learned authoritatively tonight.

MUCH OPPOSITION. The committee devoted only a small portion of an all-day session to consideration of the arbitration question. Owing to the opposition of a majority of the members of the employers' group in the committee, a favorable report could not be made, and the resolution will follow the only other possible course open — back to the main body of the conference.

A strong majority of the employers' group is known to oppose intervention in the strike, and action can be taken only with the approval of each of the three groups, voting separately. Delegates entertained but little doubt that more than half of the public representatives will vote for the resolution, but pointed out that in the employers' group only the agricultural representatives look with favor on the arbitration plan.

DEFER TO GARY. Out of deference to their fellow-member, Judge Elbert H. Gary, chairman of the board of the United States Steel Corporation, representatives of the public have never discussed the steel strike in their group meetings, and it probably will be necessary for the group to take advantage of the twenty-minute recess allowed under the rules to caucus prior to casting the unit vote on the arbitration resolution.

The central committee is reported to have made substantial progress today in devising a method of procedure for "putting all the members of the conference to work." A number of subcommittees for consideration of specific problems, together with a policy for the assignment of resolutions to those committees, will be recommended to the conference tomorrow.

Under this arrangement it appears probable that conflicting views on fundamental issues, such as the open shop, collective bargaining and the eight-hour day, will be threshed out and a basis for agreement reached in these select committees.

THOUSANDS RETURN. YOUNGSTOWN (O.) Oct. 11.—After a day that began with disaster and fear of serious trouble tonight saw the Mahoning Valley quiet and the mills working on a far larger scale than at any time since the strike began. It is estimated that 3500 men returned to work in Youngstown today, practically doubling the number who have deserted the ranks of the strikers, and gone back to their old positions. At Warren 3000 workers also returned to the mills.

Of all the steel companies the Youngstown Sheet and Tube Company was most successful in resuming operations tonight. Number 1 blast furnace was started today and No. 2 is being warmed up tonight in preparation for starting tomorrow. Two more open hearth furnaces began operations tonight. Four sheet mills out of fifteen began operation this afternoon and crews of others were called in to begin in the morning.

The Brierhill Steel Company today had a blast furnace, three open hearths and a part of one plate mill in operation.

In Warren more than 3000 workers of the Trumbull Steel Com-

pany's 2500 employees returned to work this morning and the rest will return as soon as the remainder of the mill can be put into shape for operation.

While manufacturers announced tonight that they were encouraged with the day's developments, Secretary J. H. McAden at union headquarters stated that the strikers' ranks were still holding firm.

AMERICANISM NEEDED. Americanization of foreigners should be an immediate effort of Congress through legislation, declared Senator Kenyon of Iowa, chairman of the Senate Labor Committee, which returned today from an investigation of the steel strike in the Pittsburgh district.

Asserting that about half of the steel workers are of foreign birth and cannot read, write or speak English, Senator Kenyon said one of the first aims of Congress should be the Americanization legislation.

In a formal statement, issued last night, Senator Kenyon said that the committee has not yet completed its investigation. I think it permissible to say, however, that the committee returned from the Pittsburgh district with a strong feeling in favor of some Americanization bill.

"When you find that in some of the mills over 50 per cent. of the workmen cannot read, write or speak the American language; when it is necessary in these mills districts to publish orders in all kinds of languages, it is time for the American people represented by the American Congress to give determined consideration to some plan of affording these foreign citizens an opportunity to learn what the institutions of America stand for and to become Americanized. We saw some young fellows who had only a smattering of our tongue who impressed us as splendid material out of which to make American citizens."

TWO BILLS PENDING. Two bills are now pending before the committee, of which I have the honor to be chairman, dealing with this question. The committee meets this week to take them up, and I earnestly hope that one or both of them may be reported out of committee and may be passed by Congress before adjournment. There is no greater question than that of Americanizing this nation of ours.

"Many of those who cannot speak our language are yearning to know it, and want the opportunity to learn about our institutions. Most of them have subscribed for Liberty Bonds, but how can they know anything about American institutions when they cannot speak America's language. We cannot reach a one-language nation overnight, but one-

eventually should be our goal. It will take some time, but the result will be worth while, for there is national solidarity in all people of a nation speaking the same language. Eight and a half million people in this country over 10 years of age cannot speak, read or write the American language. To the citizen should resolve to do his part, citizen should resolve to do his part."

COMMITTEE DEMANDS FITZGERALD'S OUSTING. CHARGE MASSACHUSETTS REPRESENTATIVE WITH ELECTION BY FRAUD. (BY A. P. NIGHT WIRE.) WASHINGTON, Oct. 11.—Formal recommendation that Representative John W. Fitzgerald of Massachusetts, former Mayor of Boston, be ousted from his seat in the House, was presented today by an Elections Committee headed by Representative Goodall of Maine. A majority report proposed that Peter F. Tagus, former Representative, be seated, while Representative Luca, Republican, Massachusetts, proposed that a new election be ordered. Both men are Democrats, contesting the election of last November, and House leaders tonight agreed that committee reports should be called before the House next Saturday for final action.

Mr. Fitzgerald's plurality of 238 on the face of returns was reduced to ten by the committee canvass of the 1300 contested ballots and the card of votes cast in three precincts of the Fifth Ward in Boston on the ground that fully one-third were fraudulent was held by the committee majority to give Mr. Tagus the election by 225 votes. Colonization saw some young fellows who had only a smattering of our tongue who impressed us as splendid material out of which to make American citizens."

Holding that it was impossible to show Tagus received a plurality and that the correction of votes in three precincts was unjustified, Representative Luca urged that the House order a new election.

"Illegal registration of which Mr. Tagus complains and which furnishes the only sufficient grounds for vacating the seat," he declared, "was a continuance of the conditions that Mr. Tagus twice accepted when he was elected. He has not turned to his detriment. He may not profit by fraud at which he had connived."

Germany's Jobless Benefits High. (BY CABLE AND ASSOCIATED PRESS.) BERLIN, Sunday, Oct. 11.—Germany has paid 4,500,000 marks in unemployed benefits since the outbreak of the revolution, according to estimates here.

The Los Angeles Times carries the story of your appeal to a vast army of readers, advertised articles, and who, on account of the paper, are predisposed in favor of its advertisement.

Will Gompers Kill Red Leadership in Labor's Rank

As many observers see it, the calling of the steel strike at this time reveals the pose of certain revolutionary radicals to wrest control of the American Federation of Labor from the hands of Mr. Gompers and the other moderate-minded leaders and place the Reds in the saddle, thus making it "the first gun of the industrial revolution." Senator Kenyon declares that the strike is "the first skirmish in an industrial war in the United States and the New York Times agrees that "it is industrial war in which the leaders are radical social and industrial revolutionaries, while their followers are chiefly the foreign elements among the steel workers, steeped in the doctrines of the class struggle and social overtones, ignorant and easily misled." "The authority and leadership of Mr. Gompers are at stake in this strike," adds the New York Times; "He has no liking for the revolutionary element; for years he has fought against it; he has known the radicals were all the time working to destroy him." On the other hand, Mr. Gompers, himself, defends William Z. Foster, who is said to be "the brains of the whole campaign to unionize the steel industry," as a Radical.

HAILS ARIZONA AS NEW EGYPT.

Heard Tells Cotton Growers of Salt River Valley.

Long Staple Product Exceeds Any Grown in America.

World Needs Shown to Demand Greater Acreage.

NEW ORLEANS, Oct. 13.—Growth of the cotton industry in Arizona was traced by Dwight B. Heard today before the world cotton conference.

In his address on new sources of cotton production, Mr. Heard gave the history of American-Egyptian cotton in the Salt River Valley, Arizona.

In no section of the globe does the sun shine more regularly than in Salt River Valley, except in Egypt, he said, and in 1902 it was found by analysis that the Arizona land was almost identical with the soil of the delta lands of Egypt.

Because of its immunity from the boll weevil, the Salt River Valley does not suffer from the handicap to the industry that other sections of the country bear, Mr. Heard told the conference, and any danger of infection is being curtailed by the co-operation of the Department of Agriculture.

Also, the speaker declared, with the increase in quantity of cotton grown, the quality is steadily increasing in uniformity of color, sturdiness and strength. It is especially adapted, it is claimed, for the manufacture of automobile tires and threads.

OPPOSED RESTRICTION. John A. Todd, professor of economics and Oxford lecturer, declared that further restriction of cotton acreage in the United States would be "nothing short of a calamity," in the course of an address to the conference, in which he presented figures showing future needs of the world for cotton, past crops and the present prospects.

"The world's requirements," said Mr. Todd, "are practically unlimited. Europe and Asia are bare of cotton goods. The situation today is

the same as before the war, only worse. The world wants more cotton than it is getting and must have it. The more abundantly embarrased the people of the world are the more cotton they will use.

"Further restrictions on cotton acreage in America would be nothing short of a calamity. There is now and always will be a demand for all the cotton that can be raised anywhere. There is no need to restrict the supply, but rather it should be increased.

"Of course the first necessity is to assure the planter a reasonably remunerative price. Despite the great increase in the cost of cotton today, it is still one of the cheapest products, and it has not increased in proportion to other commodities. J. Shottowe Wannamaker, president of the American Cotton Association, said that cotton had been a curse to the southern States. Cotton brought disaster, bringing on the war between the States," he said. "Cotton is why there are white women and children working in the fields.

URGES BETTER PRICE. "There won't be an increased acreage of cotton until a price is paid for the product which will justify its being raised by well-paid labor. "If this conference adjourns without taking steps to increase the yield per acre, it is dodging the issue. There will not be any increased acreage but there must be an increased yield and the price must take care of the grower's chance the grower has to take."

Shortly after Mr. Wannamaker concluded his address, John A. Simpson, president of the Oklahoma Farmers' Union, offered a motion to the effect that the statements of Mr. Wannamaker be given to the press in the sentiments of the growers' division. The chairman refused under the rules to present the motion and a motion for resumption of the regular order of business put an end to the arguments.

Theodore H. Price of New York expressed his belief that it was impossible to stabilize the price of cotton.

GROCCERS DENY HIGH COSTS THEIR FAULT.

STATE RETAILERS GATHER AT FRESNO FOR THREE-DAYS' CONVENTION.

FRESNO, Oct. 13.—That the retail grocer is not responsible for the high cost of living was the declaration of the members of the twentieth annual convention of the Retail Grocers and Merchants, at the opening sessions held at a local hotel here today. Over 100 delegates and representatives of the leading grocery stores of the State were in attendance. The convention will last for three days.

Today's program consisted of the reading of the report on the activities of the association for the past year by Secretary Frank B. Connolly, who sought to show that the title of "profiteer" did not belong to the grocer.

Other speakers included Perry T. Chamberlain of the Wholesale Grocers' Association, who laid the high costs to the producers, the packers and the farmers' co-operative associations.

Mayor W. F. Toomey welcomed the delegates on behalf of the city. Today's proceedings concluded with a banquet, showing food products, in the City Auditorium, after which a ball was held. An attendance of 2000 people participated in the ball.

The principal business of the convention tomorrow will be the hearing of addresses by representatives of the three leading fruit concerns in the State, which have been charged with profiteering. Wyllie M. Giffen, president of the California Associated Raisin Company, will speak on the reasons for the prices fixed by the association; H. G. Coykendall, general manager of the California Prune and Apricot Growers, and F. H. Wilson, president of the California Peach Growers, will also speak on the reasons for the prices fixed on their commodities.

DANIELS MAY ACCEPT VICE-ADMIRAL RANKS.

WASHINGTON, Oct. 13.—Secretary Daniels, in conference today with Chairman Page of the Senate Naval Committee, was said to have acquiesced in the Senate proposal to give retirement rank of vice-admiral to Rear-Admirals Sims, Benson and Mayo, instead of the rank of admiral, which was proposed for the two named officers by President Wilson.

Senator Page said, however, the bill would not be pressed until it was learned whether Admiral Benson would accept the lower rank. The nomination of Admiral Counts to be chief of navy operations also was discussed at the conference. Senator Page said he believed the nomination finally would be confirmed.

SAN FRANCISCO, Oct. 13.—Because the coming of the new Pacific Fleet increased the importance of the Mare Island navy yard, near here, a second aide has been added to the staff of the commandant, L. E. Beach. It was announced today. Lieutenant-Commander Harvey Halpell has been appointed to the new position.

Grain Embargo Inquiry Postponed. (BY A. P. NIGHT WIRE.) WASHINGTON, Oct. 13.—Inquiry into the course of the United States Grain Corporation, in ordering embargoes on wheat, corn and other grains to restrict their exportation, was postponed in the resolution introduced today by Senator Owen, Democrat, of Oklahoma. The resolution, which was referred without discussion to the Senate Expenditures Committee, followed much criticism by several Senators of Director Barnes of the Grain Corporation for laying grain embargoes which have brought reduction in prices.

New Soldier Relief Plan. (A. P. NIGHT WIRE.) WASHINGTON, Oct. 13.—A special committee representing each section of the country would be appointed to draft a soldiers' relief bill, under a resolution introduced by Representative Parrington, Democrat, of Oklahoma. Commenting on the resolution, Representative Parrington said the Wendell soldier land bill, which has the approval of the Interior Department, was neither acceptable to Congress nor to discharged soldiers, adding, the new committee "could get some money injected into the soldiers' land policy."

ROCHESTER HONORS CARDINAL MERCIER.

(BY A. P. NIGHT WIRE.) ROCHESTER, Oct. 13.—Rochester joined other cities of America today in receiving and honoring as its guest, Cardinal Mercier, primate of Belgium. City officials, church dignitaries, business men and school children joined in the day's tributes, and, as a climax at a meeting in convention hall this evening, the cardinal was presented with a check for \$25,000 by George Eastman, president of the Rochester patriots and community fund, the contribution of citizens of the city of all creeds and classes toward the reconstruction of Belgium. The cardinal left late this evening for Toronto.

BIG EATERS GET KIDNEY TROUBLE

Take Salts at First Sign of Bladder Irritation or Backache.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

15 months of smooth, clean shaving with every 12 blades

HOW many good shaves do you get with a dozen razor blades? Is it as many as five hundred?

The first shave with each blade is always the best shave. But soon after, your unstropped blade begins to dull. It grows progressively worse—and your shaves become less comfortable.

Why shaving dulls the blade

The tiny microscopic teeth which form the edge of a razor blade are thrown out of alignment on the very first shave by the wiry bristles of the beard. That's when the blade really begins to "pull." The original smooth, fine edge of the blade grows rougher with every shave—unless the blade is stropped.

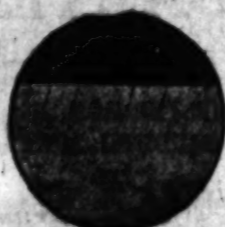

Stropping smooths the tiny teeth of the blade back into alignment, and keeps the blade sharp and fresh.

The need for a safety razor that would provide in itself the means of stropping each blade has long been recognized.

It was to meet this necessity for a self-sharpening safety razor that the AutoStrop Razor was designed. It combines the safety of the modern razor with the keen stropped blade of the old-fashioned razor.

Unstropped Blade
Seen under a powerful magnifying glass, an unstropped razor blade, after use, looks like a saw edge.

Stropped Blade
Stropping keeps the tiny teeth of the blade in perfect alignment, and provides a smooth, keen edge for every shave.

A fresh, keen edge for every shave

A remarkable stropping device, simple and efficient, is built right into the frame of the AutoStrop Razor. It provides the means for keeping the blades keen-edged and fresh. You don't have to take the razor apart—nor even remove the blade. You simply slip the strop through the razor head.

This unique feature of the AutoStrop Razor means a blade that stays sharp—a keen, freshly stropped blade every time you shave. It means that you can get a shave every morning like that first, smooth, clean shave with a new blade. 500 good shaves—fifteen months of comfortable shaving—are guaranteed from every dozen blades.

The AutoStrop Razor is the only safety razor that sharpens itself, shaves and cleans without removing the blade. A touch of the thumb adjusts the blade for a close, medium, or light shave. These features mean quick and efficient shaving.

Don't put up any longer with the scrape and smart of fast-dulling blades. Begin tomorrow to get the comfort of a fresh, keen edge for every shave.

Ask your dealer today about the AutoStrop Razor free trial plan.

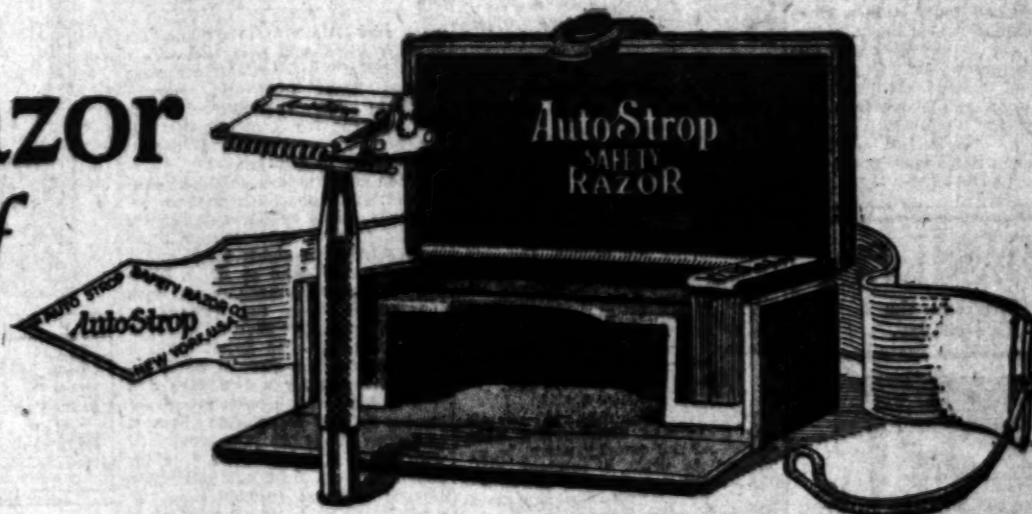

AUTOSTROP SAFETY RAZOR CO.
New York Toronto London Paris

A few passes of the AutoStrop Razor over its specially-treated strop puts the original keen, fresh edge back on the blade day after day.

HOOVER SEES A DROP IN PRICES.

Predicts Relief from High Costs is Coming.

Thinks that Another Month will Find Big Change.

Disposal of Surplus Abroad is Next Big Problem.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Oct. 13.—Food prices should begin to drop within a month, Herbert C. Hoover told a luncheon gathering of Commonwealth Club members here today.

"The United States must be in a position, however, to sell its surplus in Europe," he said. "The proper credits must be established, and our efforts to stabilize Europe must be continued so that there will be a market."

A possibility of the nation having more foodstuffs on its hands than it could handle unless the supply going abroad shall be maintained, was pointed out by Mr. Hoover.

He discussed American relations with Poland and the efforts being made by that nation to take a commanding place in the community of nations.

MUST AID POLAND.

"The United States has done much for Poland," he said. "It should not desert Poland now, when that country is on the verge of securing a stable government, which shall be patterned after American ideals."

"Premier Paderewski took many American ideals to Poland. He is American in spirit. The foreign radicals in the United States are not recruited from the Poles. Poland is doing much toward reducing the number of anarchists in the world."

"Poland loves America and appreciates what this nation did during and after the war to relieve her starvation. On one occasion, 45,000 Polish school children paraded before me in Warsaw to show their gratitude for America. Each carried the American colors."

PREPARE WAR ON PROFTHEERS

(BY A. P. NIGHT WIRE.)

WASHINGTON, Oct. 13.—In anticipation that legislation to stop profiteering soon will become effective, the Department of Justice is putting the final touches to its plans for procedure when the new weapons are available.

Atty.-Gen. Palmer today called a meeting of the conferees who took the cost of living problem under advisement nearly three months ago.

Secretaries Glavin, Houston and Wilson, Chairman Murdock and W. B. Colver of the Federal Trade Commission, Director General Hines, Assistant Attorney-General, Assistant Secretary of the Treasury

POSLAM QUICK TO CONTROL WORST ECZEMA

Just call on Poslam to bring you the comfort your suffering skin craves. Let it help you to be free from eruptions and all disorders which mark your skin as needing antiseptic, healing treatment.

Unless you have actually seen Poslam's work and know how readily it takes hold, stopping the itching at once, you will hardly believe its effects possible in so short a time.

In Eczema, Poslam's action appears all the more remarkable when the trouble is persistently stubborn and nothing else seems to bring lasting relief. Poslam is harmless always.

Sold everywhere. For free sample, write to Laboratories, 131 West 47th St., New York City.—(Advertisement.)

CLEAN OUT YOUR BILE TUBES WITH A CALOTAB

The Nauseless Calomel Tablet That Does the Work Without the Slightest Unpleasantness.

You have always thought of calomel as the best and surest medicine in the world, but too nauseating for you to take. That was the old-style calomel. Now science has robbed calomel of its unpleasant qualities, without detracting in the slightest from its liver-cleansing and system-purifying effects. The next time you are bilious or constipated ask for Calotabs. Sold only in original, sealed packages. Price thirty-five cents. One tablet at bedtime with a swallow of water—that's all. No salts, no taste, no griping, no nausea. You wake up in the morning feeling fine, your liver active, your system purified, and with a hearty appetite for breakfast. Your money back at any drugstore if you are not perfectly delighted with Calotabs.—(Advertisement.)

HOW TO ACQUIRE HAIR BEAUTY

You can enjoy a delightful shampoo with very little effort and for a very trifling cost, if you get from your druggists a package of camthrex and dissolve a teaspoonful in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. Your shampoo is now ready. Just pour a little at a time on the scalp and hair until both are entirely covered by the daintily perfumed preparation that thoroughly dissolves and removes every bit of sand, dirt, excess oil and dirt. After rinsing the hair dries quickly with a softness that makes it seem heavier than it is, and takes on a rich luster and a softness that makes arranging it a pleasure.—(Advertisement.)

SURGERY BANISHES WAR-SCARRED FACE

(BY A. P. NIGHT WIRE.)

ST. LOUIS, Oct. 13.—Facial reconstruction has been so successful that there is not an American soldier wounded in the war who now has a repulsive face, according to a report made to the convention of the Association of Military Surgeons of the United States here today.

(BY A. P. NIGHT WIRE.)

Leffingwell and H. E. Figg, assistant to Judge Ames, were present.

DISCUSS CAMPAIGN.

After a review of the program made so far, which was said to be very gratifying, considering that some of the laws requested of Congress was placed on the statute books, the conference discussed new steps to be taken when the "real campaign" is started. Officials declined to indicate what they had in mind, but it is known that Atty.-Gen. Palmer is prepared to proceed vigorously in a number of individual cases.

Another conference is to be held later in the week, when Secretaries Baker and Daniels are expected to attend and advise concerning the release of surplus foodstuffs still held by the military department of the government. The Secretary Baker today cancelled instructions for the distribution of sugar held by the army, on learning that the supply was available for only two and one-half months in advance.

Planning to take the public into his confidence concerning action against the cost of living, Atty.-Gen. Palmer will make a number of trips into adjoining States beginning the latter part of this month.

WOULD CONFER ON FOOD.

(EXCLUSIVE DISPATCH.)

WASHINGTON, Oct. 13.—An agricultural and food conference to be called by President Wilson is provided in a resolution introduced in the House today by Representative Dickinson of Iowa.

Mr. Dickinson declares that agricultural labor and capital and food producers, manufacturers and consumers are not taken into consideration sufficiently in the present industrial conference and that a need therefore exists for a separate gathering.

The resolution recites that, because of the high cost of living and the decrease in the food supply, there is an urgent need for an increase in all food production; that, because of high wages paid in industrial pursuits, the farms are being drained of their labor supply, and these subjects should be given attention in a nation-wide conference.

Mr. Dickinson would have the delegates include cereal producers, stock raisers, producers of wool, cotton raisers, food manufacturers, dealers and representatives of the consuming public.

CARRANZA RUSHES AID TO REPEL REBEL RAID.

CHANGE IN GOVERNMENT POLICY IN MEXICAN OIL FIELDS IS SEEN.

(EXCLUSIVE DISPATCH.)

WASHINGTON, Oct. 13.—Indications that the Mexican government has inaugurated a new method in the oil fields and is beginning to pay heed to the demands of the oil men for protection is indicated by a report received here today from Tampico by way of Mexico City.

The Agula company, which was recently taken over by the Mexican authorities that they had been threatened with a raid by rebels, and for the first time since the present regime in Mexico came into power, the government acted immediately, sending troops to the threatened point, and averted the raid.

The Agula company has a big refinery at Minatitlan, in the state of Vera Cruz and was at this point that the raid was aimed. Word came to the company officials at Minatitlan that the Palenas and Felix Diaz rebels were planning a raid. The news of the plan reached the company in time to dispatch word to the authorities at Tuxpan and Tampico, who at once notified Mexico City.

The gunboat Saragosa was ordered from Vera Cruz harbor to reinforce the guard at Minatitlan.

TO KILL RENTERIA'S AIDE.

(BY A. P. NIGHT WIRE.)

JUAREZ (Mex.), Oct. 13.—Prisoners captured by Mexican Federal troops who are known to be bandits are to be executed without being sent to Chihuahua City for trial before a military court-martial. Gen. Manuel Diegues announced Sunday before leaving for Casas Grandes on an inspection trip.

This order is expected to apply to "Slim" Olivas and another bandit held at Olivas, Chihuahua, by Federal troops. Olivas was the man who assisted Jesus Renteria in arranging for the payment of the ransom for the release of Leta, Harold G. Peterson and Paul H. Davis, American aviators captured by Renteria's band near Coyame, Chihuahua.

JAP MISSION SEEKING ARGENTINA COMMERCE

(BY CABLE AND ASSOCIATED PRESS.)

BUENOS AIRES, Oct. 13.—A Japanese mission, headed by a secretary of the Japanese Ministry of Agriculture and Commerce, arrived here today on board the steamer Vestris from New York for the purpose of studying Argentine commercial, industrial and agricultural conditions with a view of increasing commerce between Argentina and Japan. The commission said it was probable that there soon would be established in Argentina strong Japanese commercial enterprises, some of which already were in the process of formation.

The Vestris was thirty days on the voyage from New York on account of a fire discovered in her hold which necessitated the vessel putting in at St. Lucia, B. W. I.

SIX BODIES FOUND IN TRUNK.

(BY A. P. NIGHT WIRE.)

CUMBERLAND (Md.), Oct. 13.—The finding of a trunk of the type used by emigrants from Southern Europe, containing six skeletons on which little flesh remained, on a city dump today has mystified the authorities. All haulers disavow knowledge of taking the trunk there.

Ampico

The WONDERS of the AMPICO

Are Given New Interest by Combination With the Artistic and Modestly Priced HAINES BROS. PIANO

THE highest attainment of art is to be available and helpful to the greatest number of people—

—the wonderful AMPICO presented in the artistic HAINES BROS. PIANO makes available at a modest price this great invention which brings into the home the inspiring music rendered by master pianists—artists who, except for the AMPICO, could be heard by the majority of people only at long intervals on the concert stage.

The HAINES BROS. PIANO occupies a distinct and unrivaled position—presenting at a moderate price the attributes of quality usually to be found only in instruments of the highest cost.

It satisfies the most exacting requirements of the discriminating music-lover and has been so extensively used by professional musicians and artists for the last half century that it has won the title of "The Artist's Choice."

All the sweetness and sympathy of tone for which the HAINES BROS. PIANO is famous are displayed to the utmost advantage by the AMPICO, for it gives you the veritable reproductions of the hand playing of the greatest of living artists, so vividly that you seem to sense the very presence of the performer.

The AMPICO does what no other agency except the artist himself can do—it actually reproduces those most subtle of qualities: TONE COLOR, TOUCH AND ALL THE MINUTIAE OF TECHNIQUE which express the personality of the artist.

The AMPICO IS THREE INSTRUMENTS IN ONE—

—it may be played three distinct ways:

In addition to its unique achievement as a reproducing piano, the AMPICO may be played by hand or as a super-player of unusual powers in self-interpretation.

The AMPICO in the Haines May Be Obtained, in Upright Form, at \$975 In Grand Form, at \$2250

The AMPICO may also be secured in the "World's Best Piano," the KNABE, and in the sweet toned FRANKLIN. Prices range from \$775 up for uprights and from \$2500 to \$3500 for grands. Terms may be arranged. Your present piano or player will be accepted in exchange.

Public Recitals Daily

Any one who is at all interested in musical or scientific achievements will find these recitals intensely interesting—we most cordially invite you to attend and hear the greatest of living pianists perform just as in life.

The People and Their Troubles

REFLECTIONS OF A GRASS WIDOW

By JANE DIXON.

NO. 5—HONEYMOON.

Quite decidedly dripping sweet, the word honeymoon. Who was responsible for its coinage? Someone must have been very much in love, abundantly happy.

Such a changeable moon, to turn an endless number of faces toward the earth world! If every married woman I know and you know and everyone everywhere knows were to gaze backward over the years toward the skies of their honeymoon, not two in all the millions would see the moon alike.

For some a ghost-white light scarce discernible through the veil of mist between. For some a steady, lantern burning sultry in the sky for a sweet short while, then—snuffed out.

For some a cross yellow bauble, obscured at times by scudding cloud creatures driven by the winds of chance. For a few great beautiful round red orange glowing already against a star-spangled curtain of deep blue velvet, as some one could almost stretch forth loving fingers and touch its smiling surface.

So much of life's aftermath is written in that honeymoon. A strange secret volume. To none of us it is given to part the uncut pages and steel a peek within. Its province must be with the marriage chapter. Those daring or reckless or thoughtless or foolish sisters who seek to know and understand the book of life without the prologue wait soon enough to a honeymoon, sudden sky gathering its phials of wrath to pour upon their helpless heads.

My honeymoon was of the cross yellow bauble kind. I had married for the things of earth and, having made the supreme sacrifice—the sacrifice of body—I meant to profit in the harvest.

What! I have just come in from the rose garden with an armful of the most glorious pink blooms. Am sending you a Chinese robe from one of the Oriental stalls here. Ray and I saw it and thought you might like it. A great life if you don't weaken.

LIMP OF INDISCRETION. What possessed me to add that touch of rancor at the end I cannot say for the life of me. My whole letter was written with the idea of building up a superstructure of joy for external consumption. At the very end I ruined the whole edifice, like a child who builds a block house and just when it is ready for the top block kicks the laboriously constructed toy over with mischievous glees.

That same evening, after a glass or two more of the fruit of the vine than was good for me to sip, I stole away from a rather boisterous party in a lavilion and sought a small out-of-the-way writing-room.

What imp of indiscretion possessed me? There, under the pink-shaded desk lamp, I scribbled a note to the man I had met on that last visit before my marriage. Not a love letter nor anything approaching a love letter. Just a trothy message of greeting and good wishes—a thought sent hurtling across space in the direction of a kindred soul.

I tried to imagine what it would be like if this were our honeymoon—mine and the man who had appeared as a stranger to me.

Even now it was not too late. This thought did, I thought, me. What has my breeding in my little heart? Deserter? I was a deserter. They shot persons like me at the battle front.

I must steady myself. I went back to my party. At no time of our courtship and marriage was I more attentive to, more loving with Ray Williams than during this eventful evening. I suspected there was more than a degree of extravagance in his acceptance of my demonstrations. Now the prize was his possession, was it losing its luster?

Very smart here," it ran. "We have a suite overlooking Lakeview."

The note so hastily penned beneath the pink candle was already on its way northward.

"TOO DAMN NICE."

Drop a pebble into the water and the ripples of it will reach to the farthest shores of the lake. It was the day after that first note that dissemination began to break out on the surface of Ray's and my imitation paradise. Dissemination had existed within from the very first, but we had taken the trouble to conceal the ugly skeleton in the grand new family closet.

It all came about because one of the men had been rather attentive to me. "Too damn nice," as my husband put it.

Why did he commit the unforgivable folly of fanning my vanity, already abnormally developed? I had never even noticed the man had singled me out for special favor. Ray put the weapon in my hand. I was a usurper in my life.

There was a temptation to hurt! He had fed the animal in me with the good things of life, perfume and spices and fine linen. It is the nature of animals to scratch and spring.

We left suddenly the evening of the next day. I had met the man who Ray claimed was attentive to me. I would have played a bit if there had been time. There wasn't. Ray came along a minute after we met. There was a scene, quiet but determined. Only the fine breeding of the other man kept it from being loud and ugly.

HOME A DESERT WASTE. We made a flying exit. With us went hydra-headed jealousy, niter resentment, espionage, a sly fox. What a simpaton a girl is to entrust her happiness to a jealous man. There is not so much as a ghost of a chance she will be anything but utterly, and antlerly miserable.

If you wished to be comfortable would you build for yourself a bed of thorns? As sensible, surely, as hoping to be happy with a jealous husband. A form of the most aggravated vanity, jealousy. Selfishness in the superlative degree. Craven fear, total lack of self-reliance, meanness of mind, smallness of soul. Beware of jealous man as you would the plague.

I discovered the curse of it soon enough. And the strange part of it was that my husband thought it quite fit and proper to be attentive to any girl or woman he happened to fancy. He grew more and more blatant in his flirtations. In proportion as he waxed bold his suspicions of me increased. There is no man so critical as the guilty winner.

At last the honeymoon travesty came to a close. Ray's business demanded his presence. We turned the mask of our happiness home.

HOME. Haven of hope to happy, honeymoon. To those who cheat themselves of the god of love—desert waste, desolate, dark, deserted.

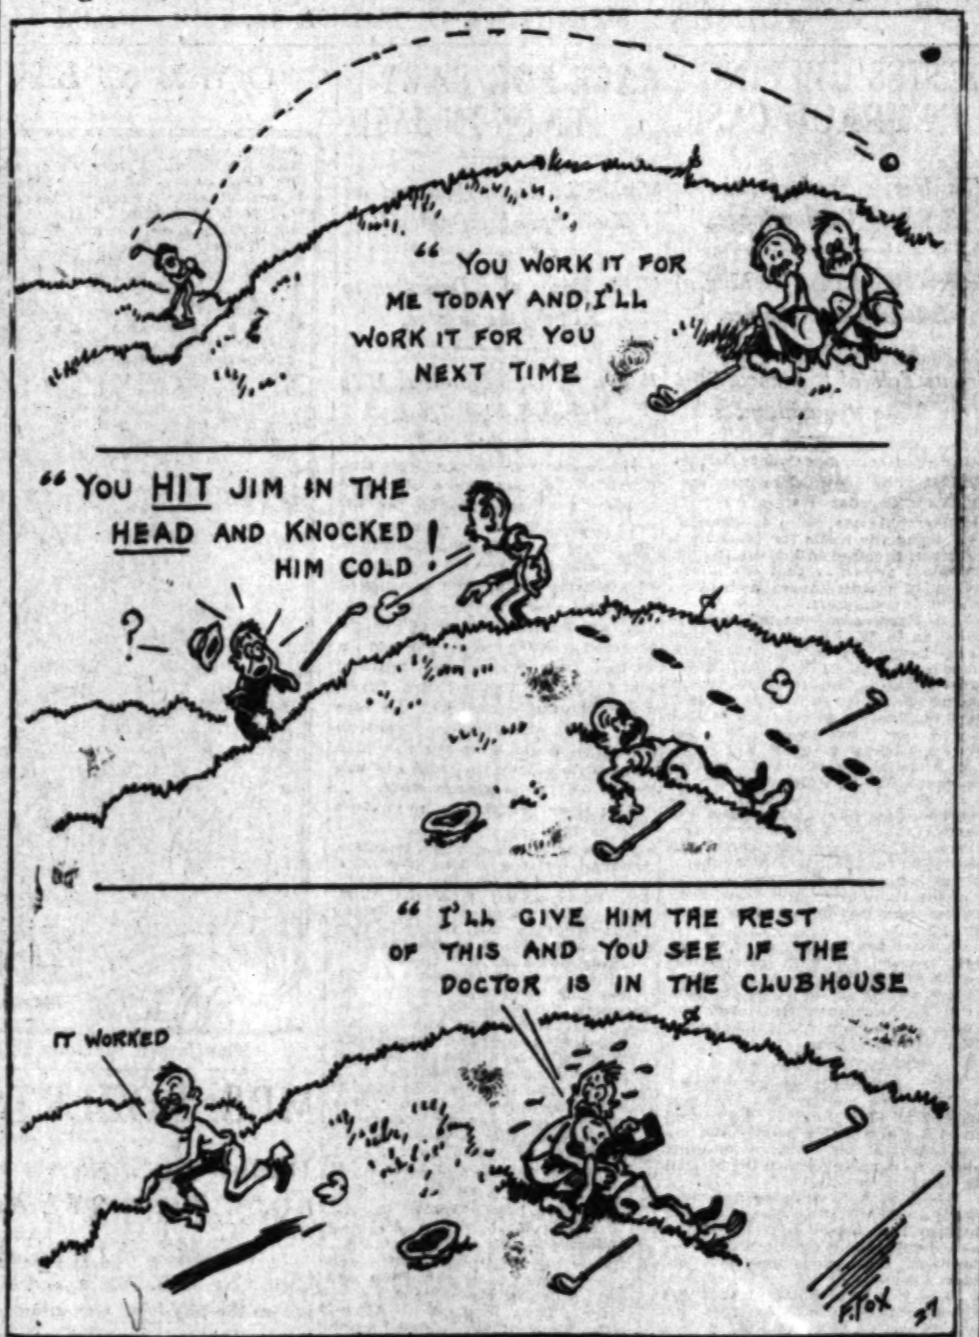

QUESTIONS ANSWERED. This manner of handling freight, eliminating the detail of arranging haulage at each end, was advocated during the war as a better method than that in use here and as a possible help toward relieving congestion.

Q: Is it now possible to send merchandise to Germany? T. L. S. A: The embargo has been lifted on goods sent to Germany. During July, the last month for which figures are available \$1,500,000 worth of American goods went to Germany.

Q: What is meant by store delivery? R. C. H. A: In England and some other countries the railway handles the freight shipment from the door of the shipper to that of the consignee.

Village Life

By FOX.

The Gollers Who Knew that the Man Behind Had a Bottle on His Hip.

A: The largest bill is a \$10,000 gold certificate. There are also gold certificates for \$5,000, \$1,000, \$500, \$100, \$50, \$20, \$10, \$5, \$2, and \$1. The use of "each other" and "one another" refers to two individuals, and "one another" to more than two. It should be said that two children play with each other, but that three play with one another. The terms are, however, quite freely interchanged by good writers.

Q: How often does a deer shed its horns? H. G. A: The Biological Survey says that a male deer sheds its antlers once a year and grows a new pair.

[Any reader can get the answer to any question by writing the Los Angeles Times Information Bureau, Frederic J. Haskin, director, Washington, D. C. This offer applies strictly to information. The bureau cannot give advice on legal, medical and financial matters. It does not attempt to settle domestic troubles, nor to undertake exhaustive research on any subject. Write your question briefly and plainly. Give full name and address and inclose a 2-cent stamp for return postage. All replies are sent direct to the inquirer.]

LETTERS TO "THE TIMES"

A Sacred Holiday. LOS ANGELES, Oct. 14.—[To the Editor of The Times:] A short time ago the writer occupied a seat in the front row of our great Shrine Auditorium, and listened to that great humanitarian President Wilson, and heard him in a most calm, dignified and statesmanlike manner tell a great audience how he had crossed and recrossed the broad Atlantic in the interest of peace and welfare of this great republic. The President explained in detail the object and purpose of that peace compact, which, after a long conference, was finally signed and sealed on the eleventh day of last November, and how imperatively necessary it was at the present time in order to insure enduring peace and universal brotherhood between all nations, both great and small, that that peace compact be now ratified, and confirmed by the complete signing of a covenant called the League of Nations.

On the third day of this month, from the same platform, I heard Senator Hiram W. Johnson, with clenched fists and in a most impulsive manner tell a great audience that the President was mistaken in his view, and that he was most inefficient and incompetent, and had practically proved himself an easy mark for a lot of astute bunco artists who were interested only in the welfare of the British empire, and that they had formulated the peace compact in secret session, previous to the arrival of President Wilson. The Senator told that great audience representing all nationalities that if there was any shoe Co. 327 S. Broadway man in the wide world today that

he would take off his shoe, the man was David Lloyd George. Americans did not know that Premier to look after the interests of that great nation, Woodrow Wilson. Having known and known for Johnson for many years, I sincerely hope that he will heed to the appeals of his friends and prove himself to be a statesman, and not a demagogue, and that he will further contribute to the future of this great nation.

In the interest of peace and harmony of the world, I am sure that the League of Nations will be ratified, and confirmed by the complete signing of a covenant called the League of Nations.

15-Minute Demonstration Makes Big Bottling Firm Life-long Dictaphone User

A well-known Atlanta (Ga.) bottling works now handles its daily correspondence more promptly and easily than ever before, because its manager was progressive enough to have The Dictaphone demonstrated in his office, on his work.

As is so often the case, he was but mildly interested when The Dictaphone was first placed on his desk. But after he had dictated a letter and his secretary had transcribed it, it did not take them long to learn that they needed Dictaphone speed and convenience in their work, so the order was placed.

15-Minute Demonstration Dictaphone demonstrations are made with an actual machine in about 15 minutes, and without interrupting regular work. Phone or write for your appointment today.

THE DICTAPHONE Registered in the U. S. and Foreign Countries. Phone: 1111. Call at 745 So. Broadway, Los Angeles. Write for Booklet, "The Man at the Desk." There is but one Dictaphone, "The Dictaphone" made and marketed by the Columbia Graphophone Company. "The Shortest Route to the Mail Chest."

MRS. SOLOMON SAYS--

(Being the Confessions of The Seven-Hundredth Wife.)

By Helen Rowland.

Consider the Fearful and Wonderful Frugality of Man, My Beloved; for from this Affliction, no Wife is Immune.

How frugal are the ways of a man, oh, my daughter! Verily, verily, strange and wonderful are his economies.

Behold, my beloved casteth away his collars at the first sign of fraying, and a shirt, whereof he hath wearied of the pattern, goeth into the discard. But of his cravats he hath never parted with a single one in all the years of his life!

What, though their glory hath faded and their style hath departed? Still doth he cherish them upon his tie rack, as a Chinaman cherisheth the bones of his ancestors.

My beloved flingeth away his shakels upon bell boys and hat-check boys, and giveth away his best cigars with prodigal generosity. But a piece of twine, and a ball of tin foil, and a rusty curtain rod, he treasureth devotedly, saying: "Keep that, for some day it may come in handy."

My beloved saith: "Let us shall dine frugally tonight. For the food profiteers are ruining me!" Yet when we have feasted upon a plate of soup and a sardine, the waiter flincheth him with his glittering eye, and, lo, my beloved writeth and handeth him four shakels as an apology.

My beloved saith: "Let us shall dine frugally tonight. For the food profiteers are ruining me!" Yet when we have feasted upon a plate of soup and a sardine, the waiter flincheth him with his glittering eye, and, lo, my beloved writeth and handeth him four shakels as an apology.

My beloved saith: "Let us shall dine frugally tonight. For the food profiteers are ruining me!" Yet when we have feasted upon a plate of soup and a sardine, the waiter flincheth him with his glittering eye, and, lo, my beloved writeth and handeth him four shakels as an apology.

Quinby's CALIFORNIA CHOCOLATE SHOP

The gift Chocolates in the famous Redwood box

A DISTINGUISH- ing mark that used to identify Quinby's California Chocolate Shop Chocolates was a genuine but inexpensive Redwood Box. Now the box is being copied everywhere. But the chocolates are not. We charge a slightly higher price because Quinby's cost more to produce.

Extra thick chocolate coatings. Visitors to California have liked them so well that they now furnish them through the better class retailers from Maine to California.

\$1.50 and \$2.00 the Pound

The luncheon, tea and dinner service at Quinby's Chocolate Shops is of the highest character.

Quinby's specialize in high grade Chocolates only—making no other kind.

Yes, sir—the biggest nine do you can get in a pair of shoes fire city. Sounds like boots but it isn't. A dresy En with brown Vici kid vamp mouse colored top. (We model in button effect.) (two-tone effect) in either black calf at \$8.50. In lace shoe has a regular twelve-do in fact you would pay that in many a store.

—Simply another demonstration of day ability to give out-of-the-card

OUR FIFTE

Our Temporary Quarters, San Francisco, May 1906—after the Great Fire

October 17th, 1919, marks the twentieth anniversary of the founding of the Bank of Italy.

On October 17th, 1904, we commenced business in San Francisco with a capital of \$150,000, and deposits. Today our capital and undivided profits are \$1,000,000.00, our deposits over \$1,000,000.00 and our resources of \$125,000,000.00.

In these fifteen years we have brought our resources and a banking service to eighteen California and have thereby daily aided in the development of this great State.

This announcement is published in appreciation of the co-operation of our 2800 stockholders and our approximately 181,000 depositors over the State.

A NOTABLE EVENT.

Today with appropriate ceremonies the cornerstone will be laid for the new administration building, erected to meet the increased call on its activities by the University of Southern California.

With the setting in place of this historic stone, something far more lasting than the foundation of a new material structure is being laid, artistically designed and nobly executed though this addition will be to our famous Southland seat of learning.

For this new cornerstone signifies also the ground on which will be patterned through coming ages the character, career and life work of thousands of our young men and women. And these young lives, through the influence and training of this earnest institution, will be molded and developed along lines to make them not only true representative citizens of the fairest republic on earth, but also immortal supporters of those higher truths through practicing which to say, "I am an American," has become the proudest title among the peoples of the earth.

From its inception in 1875 the growth of Southern California's university has been one of unbroken expansion in every direction. From an enrollment in 1907 of 518 students it had risen in 1917 to a total of 3787. This year seventeen states (besides two foreign countries (England and Japan)) figure in the registration. On its roster are the names of many men already famous in public life. The greater university that starts from today's ceremonies is another outward sign of its intrinsic worth and power.

But above and beyond all this is the mighty influence for good that such an institution exerts in spreading the high principles of good living through a thousand unbroken channels, by the example and precept of its alumni, among all sorts and conditions of men. Behind the University of Southern California is the best religious thought of America and back of that thought stands the grand old Methodist Church. An education from such a well-spring of righteousness has a value that cannot be expressed in material terms alone.

Socrates, greatest of Greek philosophers, laid down as a fundamental axiom that all goodness sprang from knowledge and all evil from ignorance. But the pagan prophet only tells half the truth. He neglected to state the greater converse axiom that all knowledge must come through goodness and all ignorance is born of evil. Tautologous proceeded on the theory that knowledge is sufficient in itself and that morality only exists as a consequence of that knowledge. And when Teutonic kultur started forth to conquer the world with this weapon, it found it was grasping the sword by the blade instead of the hilt.

Our best American educational institutions, like the University of Southern California, proceed on the sound basis that knowledge and learning must be founded on Christian morality. That is the eternal truth that is being mortared today into the cornerstones of the new building from which a greater university receives its dedication.

Germany fell because its universities tried to banish morality and religion from the curriculum. America goes forward with unbroken progress because the universities like the people love best and patronize the good. A paved highway from the Atlantic to the Pacific would be a proper memorial to the man and his work.

SOMEWHAT ON FOOT.
Some men say that the top-grade leather which sold for 30 cents a square foot in 1914 cannot be had in sufficient quantities now even at \$1.50 a square. The skins from which it is made come largely from India, Russia, Africa and South America, and, of course, these imports have been sadly restricted. As a result, well-seasoned leather is mighty scarce and shoes that sold for \$15 here are worth more than twice that in London and Paris. Of course, we know there was an explanation, but it wasn't so easy to understand why the moment of leather and the finest of imitations were offered in the market at top-grade prices. Neither did it seem reasonable that so many people should be buying the very highest priced wear. The presumption was that they had to do it in order to get shoes that would hold together long enough to walk around the block. The dealers would not even warrant the shoes to be of leather except at the fancy price. Yet it would seem that there should be hidden enough in America to make sound and serviceable shoes for the people there. What shall a man do to save his own skin?

PEATING WITH FIRE.

Now that the local railway strike is over some of the men are finding out what the union has done to them. All those in authority are getting under cover. They declare that the strike was unauthorized and therefore illegal as far as the unions were concerned. Yet men of four railway brotherhoods, by their own agreement with their employers and struck out of "sympathy." Members of other unions having no connection with transportation also expressed their "sympathy" by aiding in the occasional destruction of company property or crippling the public service. The men who went on strike deprived themselves and their families of several months' wages. They received practically no strike benefits. Now that they have lost their jobs the unions cannot help them a single particle. There is no "sympathy" now unless it is shown by the company whose interests they sought to destroy. Many of the strikers are beyond the age at which the corporation is permitted to hire new men, yet it is as now men that they now appear. They have lost their seniority, their pensions, their service stripes, their privileges—and their jobs. And for what? Because some outsiders wanted a reputation for unionizing a Los Angeles industry. The company is treating the men with kindness and consideration—but actually must first stand by those who remained faithful to their duties. The others will be treated as their merits—but with far more sympathy than they will ever get from their union. A sympathy that can only manifest itself in violence is not worthy of the name. When children cease playing with fire the turbulent spirits who started this thing are now mostly far away. But they didn't suffer any. Their fat salaries are still going on. And the sunken are paying them.

When Senator Johnson spoke in Los Angeles he ridiculed the idea that a single vote in the Supreme Council of the League of Nations could nullify an adverse vote in the Assembly. But in the course of his denunciation of the Shantung award in Tacoma he said: "The single vote of Japan could block the return of the peninsula to its former owners."

When Senator Johnson concedes that to be true, what becomes of his argument concerning the menace of the six votes of the dominions of the British Empire in the Assembly? Adherents of the League have repeatedly pointed out that the single vote of the United States in the Supreme Council afforded adequate protection to American interests. The whole of the campaign of the opposition has centered about a denial of this self-evident fact. Now the opponents of the League are admitting the truth of that assertion in order to bolster up their Shantung case.

Perhaps the Senator will finish by arguing that the vote of Japan in the Supreme Council counts for more than that of the United States. It would be as logical as the general trend of the argument of the opposition. Japan's vote in the Supreme Council would be sufficient to block action by the League to compel the return of Shantung to China before the expiration of the original lease. If Japan desired to take that stand against the other peoples of the world; and there has been no attempt on the part of the ad-

herents of the treaty to conceal that fact. This incident recalls the advice that Grover L. Johnson, father of the Senator, has himself said that he gave his son when he began the practice of law: "Deny everything; concede nothing." But Johnson, the elder, has also said that he did not expect to see this precept of practice in the criminal courts applied to politics. It is a pettifogging precept that is resorted to only in handling desperate cases, which accounts for its application in the present controversy.

The Times has said repeatedly that the power of veto held by each member of the Supreme Council was a conclusive bar to committing any country to a policy or action of which its own people disapproved. It is by reason of this veto that President Wilson refers to the obligations undertaken under Article X of the covenant as purely moral obligations. Senator Johnson has argued himself into a corner where he now asserts what he formerly denied.

How to Bring it Down.

herents of the treaty to conceal that fact. This incident recalls the advice that Grover L. Johnson, father of the Senator, has himself said that he gave his son when he began the practice of law: "Deny everything; concede nothing." But Johnson, the elder, has also said that he did not expect to see this precept of practice in the criminal courts applied to politics. It is a pettifogging precept that is resorted to only in handling desperate cases, which accounts for its application in the present controversy.

The Times has said repeatedly that the power of veto held by each member of the Supreme Council was a conclusive bar to committing any country to a policy or action of which its own people disapproved. It is by reason of this veto that President Wilson refers to the obligations undertaken under Article X of the covenant as purely moral obligations. Senator Johnson has argued himself into a corner where he now asserts what he formerly denied.

When Senator Johnson returns to Washington the other members of the Battalion of Death are likely to invite him to attend a conference and bring his Tacoma words along for lunch. In his Denver and Salt Lake speeches Senator Johnson awakened both surprise and merriment by vehement assertions that he would never support the "treaty without reservations." It had suddenly ceased to be the "infamous thing" that must be beaten if American independence was to survive. The Senator was plainly casting an anchor to the windward. It was a speaking tour to defeat the treaty, and the tour by supporting it, and still set away with it. We recall that Johnson once won a State election by campaigning for prohibition in Los Angeles and against it in San Francisco; but the pitcher which goes often to that well is pretty certain to be broken.

A striking instance of the effect of the Senator's campaign here against the peace treaty was given Sunday night when the congregation of the Vermont Square Methodist Church, by a vote of 135 to 1, instructed its pastor to memorialize the California Senators, urging them to support the treaty without amendment. This was an expression of the "common people," whom Senator Johnson described in a wire to his colleagues in the Senate as "united in their opposition to the treaty."

SAD NEWS.
It is rather discouraging and not at all flattering to our sense of vanity as a people, to say the least, that there was a noticeable falling off in the number of new millionaires the year before last. Perhaps reports for this year will be more assuring, but we must wait some time to know. The trouble with the statisticians is that they are so infernally slow. They seem to be a class who work slyly hours and play golf or checkers the rest of their time.

And we are indeed hopeful that this year will show a gain instead of a loss of the number of incomes over the million mark. If we are to believe half of what any one single day; talk to the gatekeepers at the baseball parks; read the automobile announcements; take a look into the department stores.

It would almost seem that everybody is making a million dollars this year. Look at what it costs to eat; and yet

everybody is eating. Your wife can't buy a simple suit of clothes for less than \$150, but she wears 'em, doesn't she? Shoes are anywhere from \$14 up, but there isn't a barefooted man or woman in this town. Here are figures enough to prove that this year's crop of millionaires will be the biggest ever. We don't have to wait for the statisticians.

Now, all this is very comforting, of course, but the fact that there was a falling off in millionaires one year still stares us in the face. We never can make up for it. There is an old and a true saying that "the mill will never grind with the water that has passed."

It is like a man running a theater. If the attendance is small at one performance, a crowded house at the next performance will not make up for the losing one. What's gone is gone, and nothing can ever bring it back unless it be a cat that you take in a bag and drop in a river 200 miles away from home.

And how are we to explain it? How can we wipe out the disgrace of it? In what way will we be able to square ourselves with the peoples of the rest of the world to whom a million dollars is something to be seen only in America, like Niagara Falls, the Grand Canyon, Brooklyn Bridge and octogenarians dancing two-steps?

There is no way to explain it. The plain, unvarnished truth is that we have been asleep at the switch. We have been wool-gathering, but not the right way. There is only one thing to do, and that is for all of us now to wake up and make a spurt. Let us make next year a record-breaker in millionaires. Let it not be said when the figures are made up for the year 1920 that a single American was pointed out who has not made his million.

John W. Gates once said that "it is easy to make a million dollars, and so, of course, it is." And it will be great sport doing it. Making money is the best game there is. Pinocchio can't compare with it, or solitaire even. It is a game where you have to keep your eye on the ball. And, if you stop to spit on your hands you lose, right then, the price of a porterhouse steak before you know it.

Here is America under your feet. Go to it! Postmaster-General Burleson is to be investigated and among the first witnesses to be called will be former Civil Service Commissioner Charles Galloway of South Carolina, who declares that Burleson in the selection of postmasters flagrantly violated the civil service laws. Galloway is a real Democrat. He entertains the old-fashioned idea that the civil service law was made to be enforced. There is likely to be no screening of Burleson in order to protect the President.

FREEDOM!
The "closed shop" means that no man can obtain employment in that shop except through and on the terms and conditions imposed by the labor unions. He is compelled to join the union and to submit to the dictation of its leader before he can enter the place of business. If he joins the union he is then restricted by its leader as to place of work, hours of work (and therefore amount of compensation) and advancement in position, regardless of merit; and sometimes, by the dictum of the union leader, called out and prevented from working for days or weeks, although he has no real grievance, and he and his family are suffering from want of the necessities of life. In short, he is subjected to the arbitrary direction of the leader, and his personal independence is gone. Personal ambition to succeed and prosper is stifled. This country will not stand for the closed shop. It cannot afford it. In the light of experience, we know it would signify decreased production, increased cost of living and initiative, development and enterprise dwarfed. It would be the beginning of industrial decay and an injustice to the workmen themselves, who prosper only when industry succeeds.—Judge M. H. Gary in Leslie's.

JUDGMENTS.
The story that starts out as a secret always has the right of way. Truth has to foot it nearly all the way, but most anybody will give a lie a lift. Memory is the Utopia of old age. The man who goes looking for trouble has little to do, but he will soon be busy. And our little lives are rounded in as few dreams. Some women marry in haste and repent in slower cooks. An old-fashioned gentleman is one who is a favorite with the old ladies. Why censor the "movies" when you can imprison the scenario writers? Are you a lowbrow or a highbrow? Be sure your breath will find you out. Lots of folks don't think of a thing in time not to say it. A wink is as good as a mile.—Judge.

Muzzle Puzzle.
"Stiles: I have repeatedly told my wife that I wanted her to muzzle her dog."
"Myles: Perfectly right."
"But she has repeatedly told me she'd do nothing of the kind."
"Well, what was the result?"
"We compromised."
"How so?"
"She muzzled me."—(Yonkers Signpost.)

PICTURE BRIDES.

BY ALMA WHITAKER.

The Executive Committee of the California Congress of Mothers has resolved against the Japanese picture brides. So has the American Legion of California.

But actually, of course, it is a large and insidious question which requires much deeper and studious consideration than a mere debate and resolution.

Naturally we Occidentals don't like the picture-bride idea, especially the women of us, who feel the indignity to our sex generally. But that does not alter the fact that it is natural and healthy for Japanese men to need and desire the association of women, and it is better for all concerned that they should thus associate with the women of their own race.

jury to Three Players.

AD WOLGAST STAGES A REAL COMEBACK.

EX-LIGHTWEIGHT CHAMP KNOCKS OUT KANE—IS BACK TO OLD FORM.

Judging from the way Ad Wolgast has been going lately it looks very much as if the ex-lightweight champion is staging a real comeback. At Tulsa last Friday, Wolgast put away Walter Kane in eight rounds and showed a lot of his old-time aggressiveness and bulldog courage.

BIG WORLD SERIES ON SCREEN AT CLUNE'S.

Baseball fans who dropped a bit of coin on the initial game of the world series, as well as those who placed their confidence on the Cincinnati Reds, are looking to Clune's Broadway this week to get a pictorial survey of "how it all happened." The picture shows the Cincy players in real action against the White Sox, depicting many of the thrilling plays by which the Cincinnati team carried the honors with a score of 9 to 1. Cicotte, Wilkinson and Londermilk are revealed on the screen in their attempts to stem the tide of Cincinnati's onslaught.

TIGER "FROSH" DEFEAT HOLLYS.

Football Boys Come from Behind Only to Loose.

Grid Play Featured by Intercepted Passes.

Davis Displays Some Powerful Line Plunging.

BY PAUL LOWRY.

Three intercepted forward passes, which were converted into long runs for touchdowns, featured yesterday's football game between Hollywood High School and the Occidental freshmen, won by the latter 16 to 13 after the football boys had come from behind in the last quarter and put over two scores in rapid succession.

Corey again stormed his way over the prep school line in the third quarter, following a series of line plunges that had marched the ball to the 2-yard line. The fourth and concluding touchdown for Occidental came just before the close of the period. Johnson, who had succeeded Garay at full-back, snared a Hollywood forward pass and sprinted fifty yards to the last chalk mark.

The fourth quarter was all Hollywood. Coach Jensen stuck some substitute backs, who, finding that they could not penetrate the line, resorted to a full-on attack. Young Mr. Nason interfered with this mode of procedure by falcinating into the air after one of the Tiger forward passes and knocking madly down the field for a 70-yard run, the longest of the game. Davis kicked the goal.

TO PACK THROUGH. Buoyed up by Nason's exploit into the touchdown, reeling his mates proceeded to pack the spheroid through the fast-tiring Oxy line. Down the field it went to the 3-yard line. It was fourth down and two to go. The ball was given to Davis, a Hollywood back with barrel-like legs, who plunged straight into a stone wall of writhing legs and arms. Finding that he could make no headway in that direction this Davis person wedged around the mass until he discovered himself over the line where at he promptly fell down for the second Hollywood touchdown. The goal was missed. The whistle sounded soon after the ensuing kickoff.

Until the powers of endurance of the Tiger freshmen line gave out it showed a fast-charging attack and a splendid defense. There are a couple of men among those yearling forwards who would look mighty good to Oxy supporters in varsity suits. Left Tackle Corey's work stamped him as a potential Tiger star. Jones also did good work, though he had one against him who was big enough to give him a battle.

MEN ARE SPEEDY. The work of Osborne, Garay and Roberts in the Occidental backfield was particularly good. All three are speedy men. They also would bolster the varsity.

Chunky Davis appeared to be one of the best men on the football eleven. Coach Fred Johnson sent so many men into the fray it was hard to get a line on the capabilities of the men as a whole. Davis boots nicely, his kicks for the most part being spirals with a good range.

DUNDEE PUTS IT ON YOUNG KOBY.

LAWRENCE (Mass.) Oct. 13.—Johnny Dundee of New York was awarded a referee's decision today in a twelve-round bout with Young Kobay of this city. The men are lightweights.

The Speed Merchant of 'em All. Lieut. W. B. Maynard, the flying parson, who outdistanced all his rivals in the transcontinental airplane race from New York to San Francisco. The photograph also shows Observer W. E. Kline and the official mascot, Trida.

HEADLIGHT LAW EXPLAINED.

Steve Neal, chief headlight inspector, and Louis La Place, both of the State Motor Vehicle Department, are in Los Angeles ready to give practical demonstrations on the ins and outs of the new law concerning glaring lights.

BOUTS AT DOYLE'S TONIGHT.

Unless all signs fall there will be a wild party at Jack Doyle's fight emporium this evening. Steve Dalton and Johnny Celmars have been hooked up in their future event of the programme and sand-paper is silk compared to either of these gent's.

TO PLAY JUNIOR GOLF TOURNAMENT NOVEMBER 27.

DEL MONTE, Oct. 13.—The California Junior golf championship is open to boys and girls under the age of 18 years and will last four days, starting Thanksgiving Day, November 27, and ending on Sunday, November 30. The programme with the list of prizes has been mapped out. It will be as follows: Thursday, November 27, qualifying round of eighteen holes match play. First eight qualifying for match play, at scratch in the championship flight. Other flights of eight holes at handicap. Friday, November 28, first round match play. Saturday, November 29, second round match play. Sunday, November 30, finals.

NINE AIRMEN FINISH RACE.

"Flying Parson" Makes Preparations for Return Flight Eastward.

(BY A. P. NIGHT WIRE.)

CHICAGO, Oct. 13.—Nine of the forty aviators remaining in the transcontinental reliability race finished the first lap of the aerial derby today, three from the west landing at Mineola, N. Y., and six at San Francisco. The remaining contestants are at various control stations along the route, but sundown tomorrow will see the majority of them near the end of the first lap. Twelve finished the first lap while a score have dropped out on account of accidents and five men have been killed.

Lieut. R. W. Maynard, the first aviator to reach San Francisco and complete the trip from ocean to ocean, is preparing for his return flight. His plans to leave at 1:12 p.m. tomorrow at the expiration of the minimum allowed at the terminus.

FROM THE WEST. The aviators from the west landing at Mineola were: Capt. I. H. Smith, 10:50 a.m.; Lieut. H. E. Queens, 1:44 p.m.; and Lieut. R. S. Worthington, 2:17 p.m. Capt. Smith said he had beaten Maynard's flying time by a half-hour.

The six flyers landing at San Francisco were: Capt. C. H. Drayton, 3:45 p.m.; Lieut. Alexander Pearson, Jr., 3:55 p.m.; Capt. H. C. Donaldson, 4:49 p.m.; Lieut. Earl Mammelmann, 4:54 p.m.; Capt. Harry Smith, 5:12 p.m.; and Lieut. I. S. Webster, 6:23 p.m.

Flying conditions throughout the Middle West, which were poor at the start of the day, improved later and the ships made good time.

SUFFERERS FALL. Lieut. H. D. Norris, accompanied by Mechanic E. J. Myer, suffered the only fall of the day when he lost his way in a fog between St. Paul and North Platte, Neb., and plunged into a hill. Neither of the aviators was seriously injured.

Preparations were being made at the control station for the return flight following the announcement from Washington that the flyers could start their return journeys within forty-eight hours after arrival at a terminus, and not later than six p.m. after arrival.

WESTBOUND. (BY A. P. NIGHT WIRE.) SALT LAKE CITY, Oct. 13.—Four westbound aviators in the air race across the country who were in control here and at Salt Lake this morning, had departed before 5 o'clock and five others, westbound, who had been in control east of here, landed and passed on to the West at sundown tonight.

The five to arrive and pass were Capt. Harry Smith, No. 29; Lieut. Col. T. S. Bowen, No. 27; Lieut. Col. John Reynolds, No. 16; Lieut. H. W. Sheridan, No. 48; and Lieut. G. B. (Continued on Third Page.)

They've arrived!

The YANKS are surprising the world!

When these youngsters first appeared on the cigarette battlefield, everybody wondered what they could do.

But in one sector after another they quickly demonstrated their smoking qualities.

YANKS have a pleasant way about them. You can smoke a whole round of them without stopping to cool. They're peace-time cigarettes with a peace-time price—20 for 18 cents—and get this—

Cork helmets!

They Make Good CIGARETTES

Uhlan, World's Greatest Race Horse, is to be at Exposition Park.

UHLAN TO BE ON EXHIBITION.

World's Greatest Race Horse at Exposition Park.

Big Live-Stock Show to Open Next Saturday.

To Resume Ascot Park Races Thanksgiving Day.

The greatest race horse in the world, Uhlan, heads the classic aggregation of steeds that have been assembled in Southern California since the historic Santa Anita race track closed several years ago. In this part in the two meetings in connection with the Los Angeles Live-Stock Show which opens at Exposition Park next Saturday.

Judge Ed R. Smith, the veteran turf official, is superintending the meeting and more than 200 animals from the most famous stables in the country will participate in the running events, in addition to an elaborate program of harness races. Numerous early arrivals are already at the track and every train into the city from the East and Middle West is bringing others.

To SOME RACERS, Uhlan holds more records than most horses have and so it would be ridiculous to think of him racing against the others, but he will be on exhibition daily under the saddle and in sulky. He will be ridden and driven by his famous owner C. E. D. Billings of New York and Santa Barbara.

Judge Smith received a telegram yesterday morning from F. E. Ward of Lexington, Ky., that he is on the way here with a squad of twelve troopers and pacers from the stables of Jack Keener of Calgary, R. French of Tennesseer, Ont.; A. E. Harlan of Goldendale, Wash., and John D. Analer of Butte, Mont. These animals just have finished the grand circuit season and are in excellent fettle to make some astonishing displays of form at the local track. Roy Grattan, 2:04 1/4; Calgary Earl, 2:04 1/4; Slater North, 2:04 1/4, and Joe Mackay, 2:05 1/4, are the most prominent in this lot, although J. McDuffie of Denver is also sending his well-known David C. along.

RUNNERS ARRIVE. A carload of eleven runners arrived at the track this morning from Salt Lake, including the stables of Jack Felter and Dan Dunsmuir. The bangtails which participated in the Ascot races are also being sent over to Exposition Park today and the total number of runners now on the job is approximately 100.

The first day's program, as announced by Judge Smith, will include the \$100 first for pure of \$9900 and the \$200 pace for \$1900. More than \$10,000 in purses have been donated by the directors of the meeting.

Many of the stables which par-

ticipated in the races in connection with the Stampede at Ascot, are to remain there until after the four-day program being arranged for the Thanksgiving season. Some of the best horses will be seen at Exposition Park in the live-stock show races.

SHIF FROM EAST. While the Ascot management is making active preparations for the big Thanksgiving festival, word comes from the East and South that other horses are being shipped. A New York stable, if present plans are carried out, will be here in time for the Thanksgiving Day race when the Thanksgiving Day Handicap, at a mile and an eighth, will be the feature.

That the motor fans too may share in this program, which is designed to be the biggest ever attempted at Ascot, Chairman George B. Bentel is checking up on the possibilities for an all-star race in which only the best-known stars and the fastest cars will run. It is probable that the motor feature will be 100 miles.

BIGGEST EVER. "We are trying to make next Thanksgiving Day the greatest in all the history of Ascot," said Chairman Bentel this morning. "We will have even better horses here and at all the tracks. We have the best thoroughbreds that came to Los Angeles for the Stampede and will remain here and other stables are certain to come."

"It would amaze one to know how much interest the return of the thoroughbreds created. I know of at least two men and one woman who have already started in to get themselves some horses for the Thanksgiving season. One prominent man told me that he was buying a horse and that he would give the purses won to charity."

"We want to keep the horse racing clean and on a par with that already seen at Ascot. And the motor racing will be at the best or at all. We have had too many great auto races at Ascot Speedway to allow the fame of the historic event to be dimmed by any inferior event now."

"We have been in communication with several drivers in the East and there are probabilities that at least four cars which never have been seen here before will come for Thanksgiving Day. We don't want to make any definite announcements regarding names until we are certain."

LAGUNA BEACH AS BASEBALL RENDEZVOUS

(SPECIAL CORRESPONDENCE.)

SANTA ANA, Oct. 12.—Laguna Beach is getting to be quite a winter baseball rendezvous, as well as the home of a large art colony. Gavvy Cravath spends his winters at home there each year, Ernie Johnson has been there several times, and Jimmie Austin, third baseman of the St. Louis American, arrived at Laguna today to spend this winter. Austin wintered at Laguna in 1916-17, and liked it so well that he came again, and there are prospects for quite an aggregation of big league talent down Laguna way during the off-season, where the diamond stars can get back to nature and dangle a line in the briny to their heart's content. Cravath is expected to arrive here within a week, and plans are already under way for the usual welcome-home banquet for his honor.

FINAL STATISTICS ON WORLD'S SERIES. DOPE FAVORS BENGALS BEST.

(BY A. P. NIGHT WIRE.)

PHILADELPHIA, Oct. 12.—The official batting, fielding and pitching averages of the world's series games between Cincinnati Nationals and Chicago Americans, as compiled by the official scorers, Joseph M. McCready, secretary of the Baseball Writers' Association of America; J. G. Taylor Spink, St. Louis; Robert Newhall, Cincinnati; and Harry Neilly, Chicago, and issued here today by Mr. McCready, are as follows:

NINE AIRMEN FINISH RACE.

(Continued from First Page.)

Newman, No. 104, the only entry of the Marine Corps in the contest. Col. Reynolds and Lieut. Newman and Sheridan planned to remain at Salduro overnight. Their arrival was reported safely, but official time was not available here.

PILOTED FOKKER.
Cadet D. L. Cardiff, who piloted a Fokker eastward as far as Salduro, Utah, on the first day of the race, brought his machine down at Buena Vista Field here today. He tried to reach here several days ago but the propeller gave way at Tampa, about forty miles west, and he was unable to make repairs until today. It is possible he may attempt to continue westward tomorrow, or as soon as other necessary repairs are made.

SAN FRANCISCO, Oct. 13.—Lieut. Webster, who was third in the westbound aviation race, left Mineola, N. Y., thirty-nine seconds ahead of Capt. Smith. Lieut. Webster was in minor trouble behind Capt. Smith at the finish here today. Lieut. Webster reached Bryan, O., the first night of the race, while Capt. Smith got only as far as Cleveland.

ARRIVE IN CHICAGO.
(BY A. P. NEWS WIRE.)
CHICAGO, Oct. 13.—Three west-bound flyers arrived late today from Bryan, O., to spend the night at Grant Park. They were Lieut. J. B. Williams, who arrived at 4:44 o'clock; Lieut. C. L. Osbourne, arriving at 5:01; and Lieut. G. H. Gale at 5:08. Lieut. J. B. Williams, Lieut. L. V. Beau and Lieut. K. Mauchan went to Rock Island, Ill., for the night.

FOURTH ARRIVAL.
(BY A. P. NEWS WIRE.)
SAN FRANCISCO, Oct. 13.—Lieut. Earl Manselman, the fourth arrival here today in the transcontinental airplane derby, arrived at the Presidio flying field here at 5:45:50 o'clock this afternoon.

RAWLINGS (Wyo.) Oct. 13.—Three more transcontinental air races. All are westbound and were unanimous in assertions that flying conditions between this city and St. Paul, Neb., are extremely difficult. After reaching the mountainous country, the racers said, they found the weather almost ideal. The arrivals were: Lieut. Reynolds, pilot, Lieut. Lieut. Nelson, observer, arrived 2:34 o'clock, departed 2:37 o'clock. Lieut. Col. Reynolds, pilot, Lieut. Reynolds, observer, arrived 2:37 o'clock, departed 2:40 o'clock. Lieut. Col. Reynolds said he expected to remain at Salduro tonight.

WASHINGTON, Oct. 13.—Two eagle boats stationed on the Great Lakes have been ordered by the Navy Department to proceed to Tobermory, Ontario, to search for Capt. Harold Damman, army balloonist, and his aide, who have been missing for several days. Their balloon was found in Lake Huron some days ago, after they had started in the endurance race from St. Louis.

CHEYENNE (Wyo.) Oct. 13.—An unidentified aviator, believed to be a contestant in the transcontinental air derby, passed over the control station at Fort D. A. Russell, after dark tonight. The machine was flying low. Flares and rockets were sent up immediately to attract his attention. Whether the aviator landed has not been ascertained.

MAY GET SECOND.
(BY A. P. NEWS WIRE.)

SAN FRANCISCO, Oct. 13.—Although he landed here third, Lieut. Pearson, it was believed here, probably will be given second place among the west-bound flyers, since he did not leave Mineola until 1:11 p.m. Wednesday. Capt. Drayton, who landed here second, left Mineola at 1:10 a.m. Wednesday. Capt. Donaldson, 13, Sopwith, was the first man to cross the continent or the Rocky Mountains in a single-seated airplane. He completed the trip from Salduro with emergency repairs made when he landed with some forces here, owing to a drop of oil in his engine. He whittled a heavy strut for his landing gear from a pine board, as he expected to encounter potholes. Extensive repairs will be required. It was stated, before Capt. Donaldson's

L.A.C.C. FALL HANDICAP.

After the smoke had cleared away from the qualifying round of the Fall Handicap golf tournament at the Los Angeles Country Club it was found that Robert A. Fowler was standing in the glare of the lime-light at the head of the list.

Running him a close second came George H. Snyder and from there on there were sixty-four golf enthusiasts scattered to the end of the list.

Matches in the fall handicap tournament will be played each week, half of the entrants being eliminated at each crack until the list narrows down to the finals. The large number of players entered in this season's affair gives promise of one of the best tournaments ever staged by the L.A.C.C.

PLAYING WELL.

Bob Fowler has been playing an excellent game of golf lately but will have some stiff competition before the end of the battle rolls in to view. Keeping his place at the head of the column will require a pretty close speaking acquaintance with main "cup".

SOCCER NOTES.

Now that baseball is over for this season soccer will come into the picture for the winter. There is promise of a great revival in the booting game this year and at least a few teams will be organized and new teams and colors will be on exhibition.

There is more than enough talent in hand to supply an elite club league and the prospects are bright for a brilliant competition. The Rangers were outstanding for a great many years during which they swept all opposition before them and set a great standard for other clubs to copy. The present club are making an even start and are therefore on an even basis.

Sopwith will be in condition to make the return journey.

ENGINE PAULTRY.

A faulty engine in his De Havilland biplane, Capt. Drayton and his observer, Lieut. J. B. Williams, for almost the entire distance, they said, upon arrival here today. Excessive oil pressure kept the aviators cleaning up sparks and at times caused cylinders to miss fire. A forced landing was made in a plowed field at Lovelock, Nev., when the engine showed signs of stopping altogether, and Capt. Drayton was thrown through the air when the wheels sank into the soft earth and the plane stood on its nose. He was unhurt, however. It was announced that Lieut. Drayton would take the plane to Mather Field, Sacramento, tomorrow, where a new engine would be installed.

M. H. Goddough, civilian observer, who arrived with Lieut. Williams, developed a slight case of pneumonia at Salt Lake City, where they spent Sunday, and upon his arrival here was pronounced a sick man.

NARROW ESCAPE.

(BY A. P. NEWS WIRE.)
STERLING (Colo.) Oct. 13.—Lieut. J. B. Williams and Capt. V. Coleman, west-bound aviators in the transcontinental race, lost their way at 7:40 o'clock tonight and narrowly escaped death when they landed at a farmhouse near here, striking telephone wires and grating a fence. Their plane was damaged, but they escaped injury. They will resume their flight tomorrow.

GRACE DIRECT WINS.

PURSE IN 2:05 PACE.

(BY A. P. NEWS WIRE.)
ATLANTA (Ga.) Oct. 13.—Grace Direct, driven by Beck, won the 2:05 pace for a purse of \$3500, the feature of the opening of the grand circuit races at the Lakewood track today. The race went to Grace Direct in straight heats, the best time being 2:04 1/4.

The popular event of the day was the battle between "Top" Geers and Murphy for first honors in the 2:15 pacing event, which Homefast, driven by Geers, won by making two heats and a third. Woodpatch, piloted by Murphy, took second place in each heat. Best time, 2:04 1/4.

The 2:05 trot went to Lou Todd, driven by F. Fleming, in straight heats. Best time, 2:11. The 2:20 southern harness race, a feature of the races in this section, drew six entries and was won by Little Direct, a Tennessee bred, owned and driven by W. M. Tolley, Columbia, Tenn. The Tennessee mare took the race in straight heats, her best time being 2:12 1/4.

The week's racing winds up the 1919 grand circuit season. The 2:05 pace, won by Grace Direct, was the last race of the season. The 2:05 pace, won by Grace Direct, was the last race of the season.

MILLER'S TEAM WINS.
(SPECIAL CORRESPONDENCE.)
SANTA MONICA, Oct. 13.—The first practice soccer game of the season was held yesterday, a team captained by F. J. Miller proving the victor over a team of Archie Miller by a score of 5 to 0. Soccer is held in conjunction with the Santa Monica Cricket Club. Twenty players turned out, all of whom showed great enthusiasm and splendid form. Fred Lee, secretary of the club, believes that the soccer team promises to equal if not surpass the work of the cricketers.

PIRATES COP.

(BY CABLE AND ASSOCIATED PRESS.)
HAVANA, Oct. 13.—The Pittsburgh National League team defeated the local team again today. The score: Pittsburgh 10, Havana 0. Batteries—Pondera and Kruger; Hernandez and Portuondo.

Camels certainly do answer your keenest cigarette desires

—for quality, for refreshing flavor and fragrance, for smooth, delightful mellow-mildness, for "body" and for real and true satisfaction!

You have only to get acquainted with Camels to realize the absolute superiority of the Camel blend of choice Turkish and choice Domestic tobaccos.

And, how you will prefer the Camel blend to either kind of tobacco smoked straight! We tell you it is a revelation!

Camels are so unusual, so unlike any cigarette you ever puffed on! They meet the exacting requirement of the most fastidious smokers!

No matter how liberally you smoke Camels they will not tire your taste! And, it will delight you to discover personally that Camels leave no unpleasant cigarette aftertaste or unpleasant cigarette odor!

So confident are we that Camels will exceed your highest cigarette ideals that we say frankly—compare Camels with any cigarette in the world at any price!

You'll forget all about coupons, premiums or gifts!

18 cents
a package

Camels are sold everywhere in quantities of 25 cigarettes or two packages (50 cigarettes) in glassine paper-covered cartons. We strongly recommend this carton for the home or office supply or when you travel.

BASEBALL NOTES.

Two White Sox players are back in Los Angeles in different financial conditions. One of them, Frank Shellenbach, is about as fat as the average player is at the end of the season. The other, Fred McMullen, is all unpolished like a davenport.

Fred's cut from the world's series amounted to \$2500, a sufficient sum to make him fair picking for the preppers for next season. Shellenbach played in hard luck. He was shipped by the White Sox to St. Paul in the middle of the season, and although recalled for next season, was away when the big things came off, and did not get in on the large gains.

Both of these players learned the game on the high school diamonds in Los Angeles.

That 12 to 3 score between Varsen and St. Paul last Saturday morning caused a large amount of discontent and many a ribald jest was uttered. At that it didn't compare so unfavorably with some of the ball played in the world's series when Cincinnati defeated Chicago 9 to 1 and 10 to 5. There is always the possibility in these eruptions with the best of teams battling.

Because he is now engaged in working on a picture, Fatty Arbuckle will be unable to attend any further meetings of the junior national commission. He had placed his proxy in the hands of Lou Anger, and it has been accepted by Chairman Powers.

Irish Meusel can commiserate with any player in a batting slump. It was a slump this season that cost Irish a lot of glory. He was batting his way along in the lead in the National League, when the ball be-

gan to fade away from his swings. Irish went sixteen straight games without getting a safe hit, and as a result was shorn of his laurels.

In the American Association the umpires do not alternate every other day as is done in the Coast League, and President Hickey believes that this brings better results. He points out that a man judging balls and strikes every day necessarily develops a good eye, while one umpiring the bases continuously becomes more expert.

Although Dan Griner, with two wins, is the only St. Paul pitcher to defeat the Tigers, there are a number of American Association men in Los Angeles who believe Merritt and Niehaus are better pitchers. Merritt seems to have lost his fast ball since coming to the Coast.

The St. Paul club for the most part has played the same old game in the present series, although it resorted to the sacrifice Sunday. This is explained by the fact that Kelley has a bunch of players who normally are clean hitters. The hit-and-run game is spectacular and good to watch if a manager has the men who can put it across. The sacrifice probably is played more on the Coast than in any other league.

Dick Niehaus is slated to go against the Tigers today, and Joe Finerman will hurt for the Tigers. As the St. Paul pitchers have been getting away with the money ball at intervals, at least, Joe probably will feel justified in resorting to his various trick deliveries. And Joe is some sleight-of-hand dealer when he takes a notion.

Johnny Bassler of the Angels and Claude Cooper of the Oaks may be with the Boston Braves next season if money will buy them. Fred Stanton, who has been looking over the Coast League, recently turned in a report to Fred Grant, president

of the Boston club. In this he recommended Bassler and Cooper. In a letter received yesterday, Grant states that he already had received favorable word regarding these players, and has them under consideration.

Truck Hannah of the New York Americans and Art Griggs are planning a duck-untar excursion to Eg Finney's canvasback conservatory in the Imperial Valley. Hannah is planning to play winter ball with the Standard Murphys, where a team is being organized by Hugh Kent. Other players in prospect are Frank Desautels, Johnny Butler, Chick Gandil and Ping Bodie.

CINCY BASEBALL CLUB GIVES MORAN \$5000.

(BY A. P. NEWS WIRE.)

CINCINNATI, Oct. 13.—The Cincinnati baseball club today presented Manager Pat Moran with a check for \$5000 as a bonus for winning the National League pennant. The club also gave money to infielder "Frank" Schreiber and outfielder Charlie Sea, recruits, in addition to the small amounts they received in the distribution of the Red's share of the world series receipts.

CINCINNATI, Oct. 13.—August Herrmann, chairman of the national baseball commission, and the other members of that body, disposed of the final details of the world's series by telephone yesterday. Herrmann announced today. The committee decided to give the four umpires who officiated in the world's series the usual compensation of \$1000 and \$500 extra plus the expense of reaching their respective destinations from Chicago and not to allow the full \$2500 asked for.

Youthful in Body and Mind

Never mind your age—as measured by years. How do you feel? That's the thing that counts! See this sprightly old gentleman coming toward you down the street. His birth record would show you that he is past seventy. But judging from the easy grace with which he swings along, his erect carriage, his ruddy complexion, the keen glance of his eye, his whole appearance the very picture of health, you would say that he is not a day past fifty. He is young in spite of his three score years and ten.

More frequently you see the opposite of his type. Men scarcely in their thirties—haggard, listless, weak, nervous—men who take no interest in life, just dragging out a weary existence, all in, tired and worn out. Though young in years, they are, nevertheless, old men. Their vital forces are on the wane. They've lost their "punch" and "pop." They feel old—and they look it!

Stay young by keeping your body fit. Keep stomach, bowels, liver, kidneys and bladder healthy and active. Build up your strength and health. Nothing will accomplish these results better than

LYKO
The Great General Tonic
Just try "LYKO" when you are feeling the least bit faded, tired and worn out. See for yourself how quickly it relieves you—what a fresh feeling of strength and vigor it gives you. It's a reliable appetizer, a stimulant and a digestive. It adds to strength and tone up the entire body. Your druggist has "LYKO." Get a bottle today. Look for the name on the package and accept no substitutes.
